Within **Non-Financial Resources**, the most significant sectors were: Social Security Contributions (32.8% of resources), Taxes on Production and Imports (30.7%) and Taxes on Income, Assets and Other Components (25.5%). Compared to the previous year, Taxes on Production and Imports was the sector that saw the most growth at 8.3%, followed by Taxes on Income, Assets and Other Components at 1.4% and then Social Security Contributions at 0.5%.

**Non-Financial Spending** stood at 26,171 million euros, 1.9% more than in 2013, with Welfare Benefits and Social Transfers accounting for the greatest proportion of spending at 48.3%, which was 0.9% up on the previous year. Employee Remuneration and Intermediate Consumption, which accounted for 38.0% of spending, was up by 1.4%. Gross Capital Formation, on the other hand, which accounted for 5.8% of spending, was actually down by 2.2% compared to 2013.

The balance between Non-Financial Resources and Spending required 1,854 million euros of funding in 2014, which is 0.1% less than what was obtained in 2013, thus still making up 2.8% of GDP.
