### **Source/destination countries, November 2022**

In November 2022, five countries (Germany, France, the United States, the United Kingdom and Italy) were the Basque Country's biggest customers, absorbing 50.4% (1,576 million) of the total exported. Three of these belong to the EU27, which accounts for 62.4%.

Exports to Germany grew by 21.3%, to France by 0.8%, to the United States by 58.8%, to the United Kingdom by 7.5% and to Italy by 16.8%. There was also a rise in exports to Belgium (43.5%), Portugal (46.4%) and the Netherlands (16.2%). Outside Europe, sales to Morocco (129.1%), Iran (135.2%) and China (5.8%) increased, while exports to Russia (-74.0%) decreased significantly.

51% of Basque imports came from the EU27. One of the standout European countries in terms of imports was the Netherlands (175.9 million with a year-on-year increase of 144.6%). There was also a rise in imports from France (7.4%) and Poland (26.4%). In the case of the United Kingdom, there was a drop of 28.2%.

Looking at the rest of the world, we can see that there were also increases in imports from the United States (284.4% with 135 million in imports), Mexico (128.8% with 220 million) and Brazil (52.7% with 52 million). In contrast, there was a decline in imports from China (-16.3% and 156 million).

In the case of Russia, there was a drop of 11.9%, going from 116.7 million in November 2021 to 102.9 million in the same month of 2022. 95.9 million of these imports were "energy" related, specifically "*Refined petroleum oils*" (low-sulphur diesel).

Basque energy imports were distributed as follows: 411 million from America (58.0%), with 215 million coming from Mexico, 93 million from Guyana, 58 million from the United States and 44 million from Brazil; 177 million from Europe (24.9%), with 96 million coming from Russia, 40 million from Norway and 13 million from Belgium; 63 million from Asia (8.8%), of which 58 million correspond to Qatar; and, finally, 59 million from Africa (8.3%), almost entirely from Libya.

### **Products traded, November 2022**

A more detailed look reveals that in November 2022 the ten main **customs duty groups** accounted for 43.2% of exports, with a combined value of 1,350.8 million euros.

Of particular relevance within this group were the growth rates in groups such as: "*Refined petroleum oils*" (84.6% and 214 million, which meant 98 million more than in the same month of the previous year), "*Passenger cars with fewer than 10 seats*" (55.6% with 348 million in exports), "*Vehicle parts and accessories*" (14.2% and 186 million in exports), "*Seamless tubes and hollow profiles made of iron or steel*" (78.7% with 85 million in exports) and "*Diesel and electric motor units for railway tracks and motorised trams*", which went from 0 to 51 million.

If we widen the scope to include the 25 most notable customs duty groups, it is worth highlighting the sharp rise in "*Articles of jewellery of precious metal, whether or not plated or clad*" (1,354.5% and 40.8 million more than in the same month of the previous year, for a total this month of 43.8 million). Other

products that registered a sharp rise were “*Biodiesel and mixtures thereof*” (going from 6 to 22 million) and “*Lifts, Escalators, Transporters, etc.*” (with an increase of 211.4%).

“Passenger cars with fewer than 10 seats” was the group with the highest volume of exports from the Basque Country, with 2,495.1 million in exports and a growth rate of 25.7%.

Among the products with the highest growth were “Diesel and electric motor units for railway tracks and motorised trams”, with 1,139.9% and 426.2 million exported, “Seamless tubes and hollow profiles made of iron or steel” (111.0% and 623.7 million) and “Refined petroleum oils” (125.7% with 2,391.3 million).

Other significant increases include those recorded in “Iron or non-alloy steel sections”, “Goods transport vehicles”, “Vehicle parts and accessories” and “New rubber tyres”, with positive variations of 39.3%, 17.8%, 22.3% and 16.0%.

The ranking of countries to which Basque Country exports were sent was topped by Germany (4,731 million), very closely followed by France (4,580 million) and at a greater distance by the United States (2,017 million), the Netherlands (1,921 million) and the United Kingdom (1,851 million). Between them, these five countries accounted for 50% of Basque exports.

The coverage rates for these countries stood at 138.9% for Germany, 185.2% for the Netherlands, 201.5% for France and 221.4% for the United Kingdom. In the case of the United States, it achieved a rate of 102.7% in this cumulative period, thus creating a small surplus in the trade balance with regard to this country, after months of deficit.

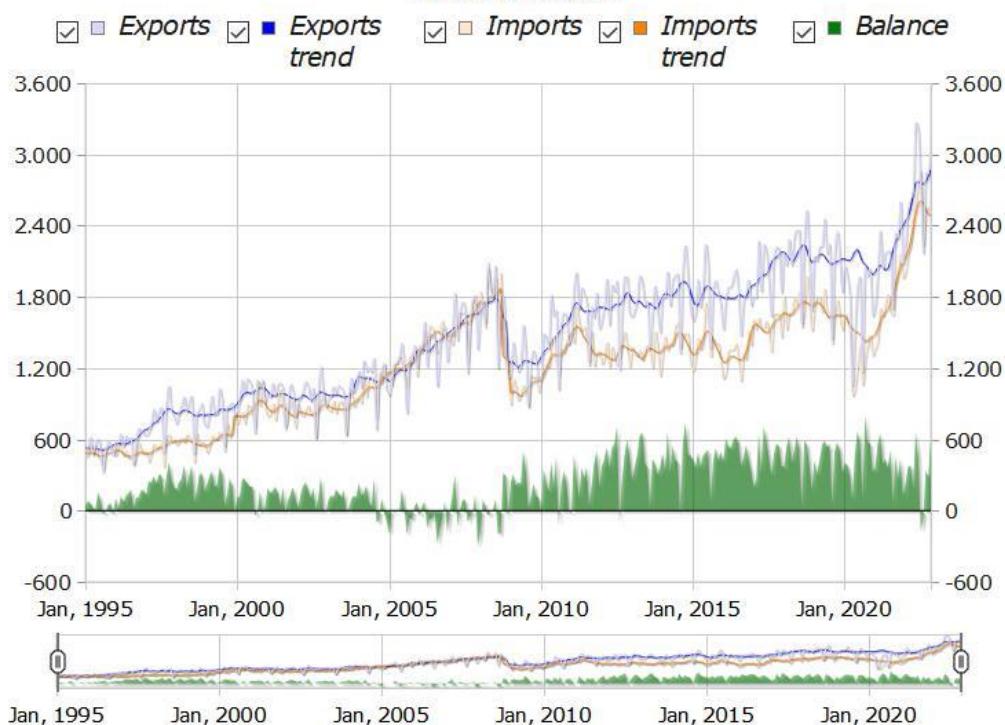

Cumulative **imports** for the Basque Country as a whole amounted to 26,948 million euros. Comparing this figure in year-on-year terms, we see that it exceeded the equivalent for the same period of 2021 by 7,847 million. This increase (41.1%) was largely due to the fact that the province of Bizkaia (with imports of 16,442.6 million) registered an upturn of 53.4%, that is, a rise of 5,722.9 million compared to the same period of the previous year. Imports also increased in Álava, up 25.3% with 1,052.4 million euros more, and in Gipuzkoa, where there was a rise of 25.4% and 1,072.0 million euros more; the value of imports in these two provinces stood at 5,218.2 and 5,287.7 million euros, respectively.

Imports of “*Energy products*” were 91.3% higher than in the same period of the previous year and those of “*Non-energy products*” were up 27.5%.

Foreign trade of goods in the Basque Country during the first eleven months of 2022 had a positive balance of 3,252 million euros, maintaining a positive coverage rate of 112.1%.
