By economic destination of goods, *Consumer Goods* posted a positive year-on-year performance in February 2023, with an increase of 1.9% for the sector as a whole. This increase was primarily due to the 2.7% upturn in production of *Consumer Durables*, which includes, among other activities, the manufacture of furniture and domestic appliances. *Consumer Non-Durables*, which includes the activities of processing and conserving foodstuffs; the manufacture of cleaning and hygiene products; pharmaceutical products; and the manufacture of clothing, posted an increase of 1.7% in production.

Production of *Intermediate Goods* also increased by 0.4% in year-on-year terms. Among the activities included in this sector are metallurgy and manufacture of metal products, chemical industry and manufacture of rubber and plastic products.

The production index decreased by 0.3% in relation to February 2022 for *Capital Goods*, which includes the manufacture of motor vehicles; construction of locomotives and railway material; and naval construction and manufacture of aircraft.

Finally, *Energy* fell by 10.0% in year-on-year terms in February 2023. This sector includes the production and supply of electrical power and oil refining.
