This month, exports from Álava saw a drop of 17.1%, while in Bizkaia they fell by 10.4% and in Gipuzkoa they were down 2.4%. In the case of Bizkaia, energy exports were up 5.8% compared to the same month of the previous year.

In Álava, most exports were in "*Transport material*", with 408.4 million (51.9% of the total), and "*Metals and articles thereof*", with 133.8 million (17.0% of the total), with falls of 25.7% and 22.7%, respectively.

In Gipuzkoa, three customs duty groups accounted for more than 75% of international trade (77.9%), which performed differently in the year-on-year comparison: "*Electrical equipment, machinery and devices*" (-4.9%), "*Transport material*" (+30.3%) and "*Metals and articles thereof*" (-2.2%).

Bizkaia saw an upturn in exports of "*Transport material*" (12.8%), "*Electrical equipment, machinery and devices*" (9.8%) and "*Mineral and energy products*" (4.9% with 198.8 million in exports). On the other hand, there were decreases in exports of "*Fats and oils*" (-93.3%), "*Plastics and rubber*" (-45.0%) and "*Metals and articles thereof*" (-11.5%).

### **Products traded in February 2024**

A more detailed look at the products reveals that in February 2024 the ten main **customs duty groups** accounted for 40.1% of **exports**, with a combined value of 1,051.5 million euros.

Within the top 25 customs duty groups, noteworthy increases were recorded in three of them: "*Petroleum oils or oils obtained from bituminous minerals*" (1,658.5% and 54.2 million in exports), "*Vehicle parts and accessories*" (20.3% and 209.6 million) and "*Diesel and electric motor units for railway tracks and motorised trams*" (122.1% and 57.3 million).

"*Passenger cars with fewer than 10 seats*" fell by 24.2%, "*Refined petroleum oils*" by 16.1%, "*Goods transport vehicles*" by 41.6%, "*New rubber tyres*" by 25.2% and "*Seamless tubes and hollow profiles made of iron or steel*" by 28.3%.

In the case of **imports**, and with regard to the top 25 customs duty groups, the most significant increases were recorded in "*Petroleum oils or oils obtained from bituminous minerals*" (48.2% and 359.9 million in imports), "*Refined petroleum oils*" (6.4% and 107.4 million), "*Internal combustion engines, diesel or semi-diesel*" (62.5%), "*Vehicle parts and accessories*" (19.3%), "*Soya-bean oil*" (884.3%) and "*Soya beans, whether or not broken*" (53.5%).

### Source/destination countries, February 2024

This month, five countries (France, Germany, the United Kingdom, the United States and Italy) were the Basque Country's biggest customers, absorbing 51.9% (1,361.9 million) of the total exported. Three of these countries are part of the EU27, which accounted for 61.4%.

France, with a total of 426.5 million euros, held first place in the ranking of countries by export destination for the fourth consecutive month. Standing out among the 675 types of products received were “Petroleum oils or oils obtained from bituminous minerals” (51.9 million), “Vehicle parts and accessories” (31.3 million), “New rubber tyres” (25.5 million), “Passenger cars with fewer than 10 seats” (19.2 million) and “Goods transport vehicles” (16.3 million).

Exports to Germany this month stood at 364.7 million euros, and, as in the case of France, were primarily concentrated in customs duty groups related to the vehicle sector (51.2% of the total): “Passenger cars with fewer than 10 seats” (76.1 million), “Goods transport vehicles” (48.7 million), “Vehicle parts and accessories” (41.1 million) and “New rubber tyres” (20.6 million), for a total of 416 different products.

This month, the United Kingdom accounted for 8.4% (220.4 million euros) of total exports from the Basque Country, of which 55.1 million corresponded to “Refined petroleum oils”, 18.4 million to “Iron or non-alloy steel sections” and 14.9 million to “Turbo-reactors, turbo-propellers and other gas turbines, and their parts and components”. Besides these three products, most of the top products

were concentrated in the vehicle sector, with 12.1 million corresponding to “*Passenger cars with fewer than 10 seats*”, 7.9 million to “*Vehicle parts and accessories*” and 8.7 million to “*New rubber tyres*”, for a total of 433 different products.

Exports to the United States amounted to 189.8 million euros. Purchases centred on “*Refined petroleum oils*” (25.6 million), “*Biodiesel and mixtures thereof*” (25.1 million), “*Seamless tubes and hollow profiles made of iron or steel*” (13.3 million) and “*Turbo-reactors, turbo-propellers and other gas turbines, and their parts and components*” (11.1 million), totalling 362 different products.

Italy came in fifth place this month with 160.5 million euros, and the majority of its transactions were also in the vehicle sector: “*Passenger cars with fewer than 10 seats*” (15.4 million), “*New rubber tyres*” (8.7 million), “*Diesel and electric motor units for railway tracks and motorised trams*” (8.6 million), “*Goods transport vehicles*” (5.8 million), “*Vehicle parts and accessories*” (5.6 million) and “*Vehicles for transporting 10 or more people*” (4.8 million).

Exports to Russia (3.2 million euros) primarily consisted of “*Machines for washing, filling, sealing and labelling containers and packing machinery*”, with 2.1 million. The remaining 1.1 million euros were shared among 15 different products.

This month, 57.7% of Basque **imports** came from the EU27. The countries that supplied goods include Germany, which accounted for a total of 405.4 million euros, chiefly divided between “*Internal combustion engines, diesel or semi-diesel*” (90.2 million), “*Vehicle parts and accessories*” (59.3 million), “*Railway or tramway vehicle parts*” (13.3 million), “*Electric motors and generators (except electrical generating sets)*” (11.9 million) and “*Constructions made from iron or steel sheets, bars, sections, tubes and similar*” (9.6 million).

For yet another month, the most sought-after product from France was “*Remelting scrap ingots of iron or steel*”, accounting for 28.5 million euros out of total imports of 195.3 million euros, which were divided among 716 types of product.

Imports from the United States (137.1 million) centred on “*Refined petroleum oils*” (41.1 million), “*Soya beans, whether or not broken*” (33.1 million) and “*Petroleum oils or oils obtained from bituminous minerals*” (30.2 million). It is worth mentioning that there were no imports of “*Petroleum gas and other hydrocarbon gases*” from the United States this month.

The most imported customs duty group was that including the usual “*Electric accumulators and parts thereof*”, with 8.0 million. Also of note were imports of “*Constructions made from iron or steel sheets, bars, sections, tubes and similar*” (5.2 million) and “*Taps, valves and similar appliances for pipes*” (4.0 million), for a total of 123.4 million euros, which were shared among 545 different products.

A total of 571 different products were imported from Italy (120.1 million euros), most notably “*Iron or non-alloy steel bars, forged, twisted or with a circular or rectangular cross-section*” (6.2 million), “*Machining centres for working metal*” (5.8 million), “*Bars and profiles of copper or copper alloys*” (3.6 million), “*Lifts, Escalators, Transporters, etc.*” (3.2 million), “*Turbo-reactors, turbo-propellers and other gas turbines, and their parts and components*” (3.2 million) and “*Bars and profiles of other steel alloys and hollow bars for drilling*” (2.6 million).

Imports from the Netherlands totalled 87.8 million euros. Of particular note were those of “*Refined petroleum oils*” (8.7 million), “*Soya-bean oil*” (6.4 million), “*Flat-rolled products of iron or non-alloy steel, of a width of 600 mm or more, hot-rolled, not clad, plated or coated*” (5.8 million) and “*Unwrought nickel, whether or not alloyed*” (5.7 million).

In February 2024, Russian imports amounted to 3.4 million euros and primarily consisted of “*Unwrought aluminium*” (1.5 million), “*Titanium and articles thereof, including waste and scrap*” (0.7 million), “*Beryllium, cadmium, chromium, germanium, vanadium, gallium, hafnium, indium, niobium,*

*rhenium and thallium, including waste and scrap* (0.5 million) and *“Unwrought nickel, whether or not alloyed”* (0.3 million), for a total of 15 products.

Energy imports (468.9 million) were distributed as follows: 280.2 million from America (59.7%), with 141.0 million coming from Brazil, 71.3 million from the United States and 67.9 million from Mexico; 120.7 million (25.7%) was imported from Africa, distributed among Nigeria (76.5 million), Libya (44.2 million) and Saudi Arabia (42.9 million); and 25.1 million from Europe, with 14.0 million coming from Belgium and 9.6 million from the Netherlands.
