### METHODOLOGICAL NOTE

The reference year for the Large Stores and Food Chains Trade Index has been updated, with 2021 becoming the new base year for the index. The process of changing the base year has also resulted in a substantial update to the methodology: among other aspects, the validation and allocation methods have been revised and the population under study has been modified. As a result, the series that form part of the index have also been updated.

Year-on-year variations are calculated using the series corrected for calendar effects, and month-on-month variations are calculated using the deseasonalised series.

Eustat would like to thank all the establishments that have collaborated in preparing the Large Stores and Food Chains Trade Index. Thanks to their efforts, the index for this month was calculated with **89.2% coverage**.
