

INDUSTRIAL PRODUCTION INDEX. SEPTEMBER 2024

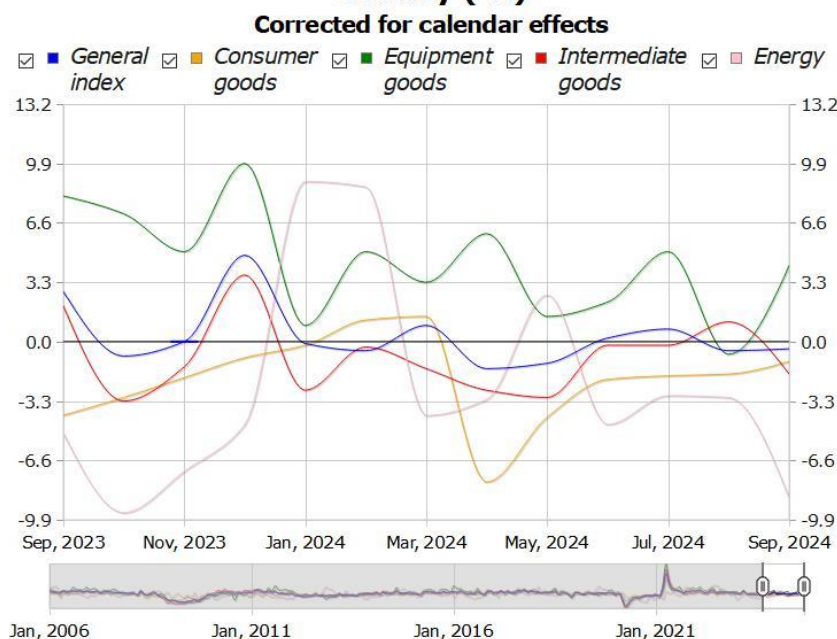

Industrial activity in the Basque Country was down 0.4% in September 2024

Compared to the previous month, August 2024, industrial production rose by 1.7%

The industrial production of the Basque Country was down 0.4% in September 2024 compared to the same month of the previous year, in homogeneous terms of the working calendar, according to Eustat data.

In relation to the previous month, once corrected for seasonal effects, industrial activity in the Basque Country increased by 1.7% in September 2024.

Year-on-year variation rate of the industrial production index in the Basque Country (%)

By economic destination of goods, production in *Consumer Goods* posted a negative year-on-year performance in September 2024, with a 1.1% decrease in production for the sector as a whole. This decrease was due to the performance of both *Consumer Durables* and *Consumer Non-durables*, which fell by 5.1% and 0.2% respectively. *Consumer Durables* includes, among other activities, the manufacture of furniture and domestic appliances. *Consumer Non-durables* includes the activities of processing and conserving foodstuffs; the manufacture of cleaning and hygiene products; pharmaceutical products; and the manufacture of clothing.

Production of *Capital Goods*, which include the manufacture of motor vehicles, construction of locomotives and railway material, naval construction and manufacture of aircraft, increased by 4.2% compared to September 2023.

In *Intermediate Goods*, which includes metallurgy and manufacture of metal products, the chemical industry and manufacture of rubber and plastic products, production fell by 1.8%.

Finally, *Energy* production in September 2024 was down 8.7% in relation to the same month of the previous year. This sector includes the production and supply of electricity and oil refining.
