

## 24% of the turnover of the Construction sector in the Basque Country in 2023 derived from Renovation of residential buildings

### 12.1% of people employed were women in 2023

The largest contribution to the revenue of the Construction sector in 2023 came from *Renovation of residential buildings*, accounting for 24% of total turnover, according to Eustat data. Following this, 20.6% derived from *Construction of new residential buildings*. With the addition of *Construction of new non-residential buildings* (7.9%) and *Renovation of non-residential buildings* (12.5%), *Construction* as a whole accounted for nearly seven out of every ten euros in turnover (65%).

*Property development* (12.1%), *Civil works* (21.3%) and *Other activities not related to construction* (1.7%) completed the economic distribution of the business of construction companies.

### Construction revenue increased by 7.7%

In 2023, the construction sector increased turnover by 7.7% compared to 2022, achieving 10,052 million euros in the Basque Country as a whole, measured in current prices.

This upward trend was shared by the three provinces, albeit to varying degrees. As such, Bizkaia, with turnover of 5,162 million euros (51.4% of the total for the Basque Country) registered the greatest increase of the three provinces, 8.1%. It was followed very closely by Gipuzkoa, which had a turnover of 3,552 million euros and accounted for 35.3% of the Basque Country total, exceeding the income obtained in 2022 by 8.0%. Álava saw a rise of 5.5%, with turnover of 1,338 million euros. This province accounted for 13.3% of the total for the Basque Country.

### Main Construction Variables. Basque Country. Current prices (thousands euros). 2022-2023

	2023	2022	Increase (%)
Personnel employed NU	65.068	63.003	3,3
Net amount of the turnover	10.052.260	9.332.356	7,7
Supplies	5.479.247	5.099.200	7,5
Exterior services	1.164.776	1.119.394	4,1

### Employment is the highest since 2013, standing at 65,000 people

In 2023, employment in the Construction sector in the Basque Country grew by 3.3% compared to 2022. In absolute figures, this is an increase of 2,065 net jobs compared to the previous year, bringing the total to 65,068 jobs.

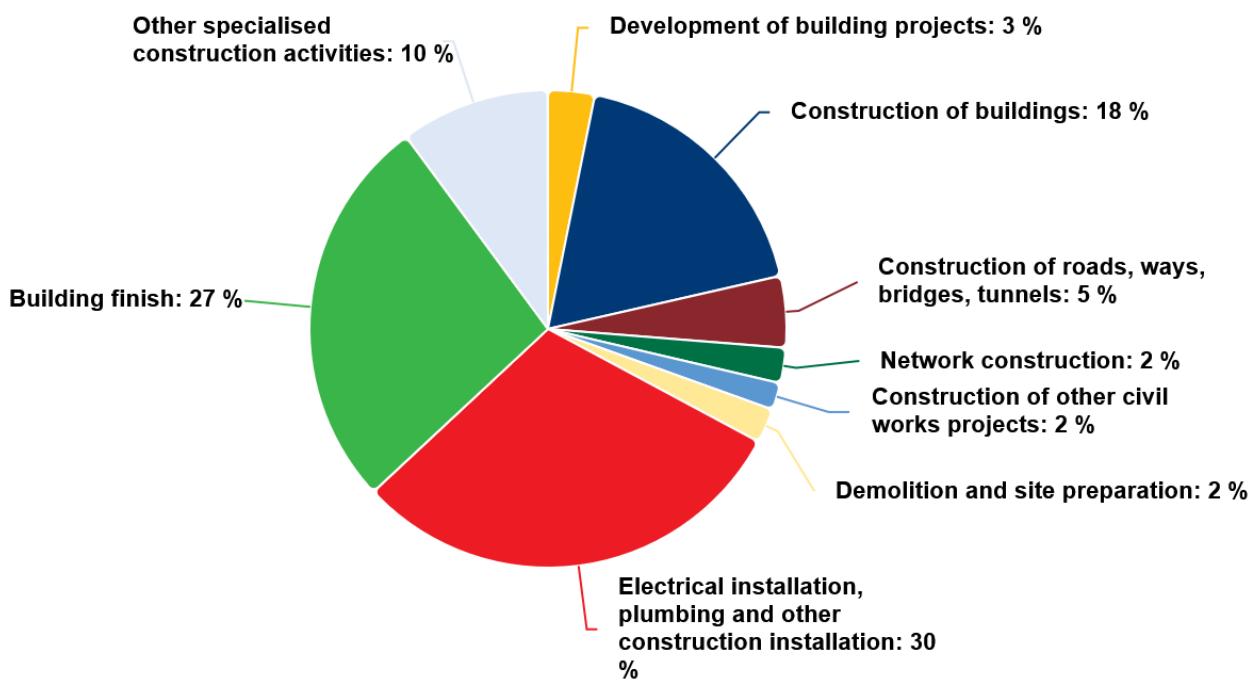

At provincial level, employment in the Construction sector was strongest in Gipuzkoa, where it rose by 5.2%, and Bizkaia, with employment up 3.1%. By contrast, in Álava the number of people employed fell by 0.4% in 2023 in comparison with 2022. As a result, in 2023, Bizkaia accounted for 53.1% of employment in the sector, Gipuzkoa 33.5% and Álava 13.4%.

In 2023, the number of hours worked indicator showed an upward trend in two of the three provinces. As such, there was an upturn of 4.1% in the Autonomous Region as a whole with Gipuzkoa registering an increase of 6.1% and Bizkaia up 3.9%. There was no significant variation in Álava, with 0.1%.

In addition, the actual trend in employment reflects differences according to establishment size. As such, only the stratum with the most employees - more than 20 - saw the biggest upturn in 2023, standing at 6.2%; next was the stratum of 1 to 19 people, which grew by 2.5%, while the group without salaried workers, self-employed people, showed a more moderate recovery, with an increase of 1.6%.
