

INDUSTRIAL PRODUCTION INDEX. FEBRUARY 2025

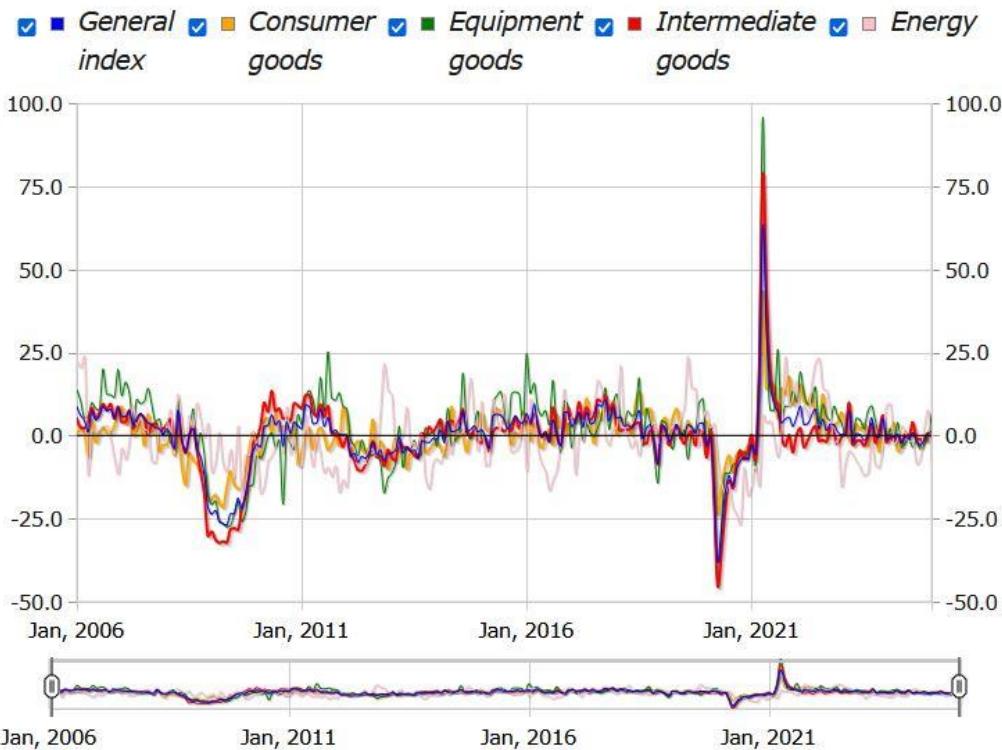

## Industrial activity in the Basque Country increased by 0.5% in February 2025

**Compared to the previous month, January 2025, industrial production rose by 0.2%**

The industrial production of the Basque Country increased by 0.5% in February 2025 compared to the same month of the previous year, in homogeneous terms of the working calendar, according to Eustat data.

Compared to the previous month, industrial activity in the Basque Country rose by 0.2% in February, once corrected for seasonal effects.

### Year-on-year variation rate of the industrial production index in the Basque Country (%) Corrected for calendar effects

Source: Eustat. Industrial production index

By economic destination of goods, production in *Consumer Goods* posted a positive year-on-year performance in February 2025, with a 3.2% increase in production for the sector as a whole. This increase was fundamentally due to the performance of *Consumer Non-durables*, whose production rose by 3.7%, given that production of *Consumer Durables* was up 1.1%. Among other activities *Consumer Durables* includes the

manufacture of furniture and domestic appliances. *Consumer Non-durables* includes the activities of processing and conserving foodstuffs; the manufacture of cleaning and hygiene products; pharmaceutical products; and the manufacture of clothing.

Production of *Capital Goods*, which include the manufacture of motor vehicles, construction of locomotives and railway material, naval construction and manufacture of aircraft, decreased by 0.8% compared to the previous February.

In *Intermediate Goods*, which includes metallurgy and manufacture of metal products, the chemical industry and manufacture of rubber and plastic products, production fell by 3.0% in year-on-year terms.

Finally, *Energy* production decreased by 5.7% in February 2025 in relation to the same month of the previous year. This sector includes the production and supply of electricity and oil refining.
