As a result of the evolution of exports and imports, **the trade deficit** in this third quarter came to 337.0 million, increasing on the deficit from the third quarter of 2005 by 74 million. As a result, **the coverage rate** of exports over imports fell from the figure of 92.7% a year earlier to 92.0%. The trade deficit for the first nine months of the year came to 487.2 million euros.

However, **non-energy exports** exceeded non-energy imports by 848 million in the third quarter of 2006, giving a coverage rate of 132%, and the trade surplus of non-energy products came to 3,023.9 million for the first three quarters of 2006 as a whole.

In the third quarter of 2006, growth of exports whose destination was the **European Union** came to 15.3%, compared to figures from the third quarter of 2005. In terms of inter-annual growth and volume the most notable of these were those whose destination was Germany (24.9%), Italy (24.6%) and Belgium (39.2%). Those destined for France, the main customer in terms of volume, accumulated a 5.8% rise in this third quarter.

Imports coming from the European Union grew by 14.5%, while those coming from countries supplying energy products increased by 25.8%.

The most important **customs duty group**, in terms of the value of our exports, corresponded to *Capital goods*, registering a 13.1% increase during this quarter, followed by the *Metal and manufactured* group, which registered a higher growth rate of 15.2%. On the other hand, the most important customs duty group among non-energy imports in this third quarter was *Metal and manufactured*, which accumulated an inter-annual rise of 45.8%, while the second customs duty group in terms of volume, *Capital goods*, fell by 3.7%. Elsewhere, *Mineral and energy products*, representing 37.2% of total quarterly imports, achieved 25.8% inter-annual growth.

Growth of exports was highest in **Bizkaia**, with a 26.2% increase in the third quarter and one of 29.3% in the first nine months of the year as a whole. Imports in Bizkaia grew by 22.3% in the third quarter, due to the growth of *Energy products* (26.2%) and *Metal and manufactured* (47.8%).

Exports coming from **Gipuzkoa** increased in value by 8.9% between July and September, buoyed up by the positive evolution of *Capital goods* (8.5%) and *Metal and manufactured* (11.6%). Imports whose destination was Gipuzkoa grew by 16.4%, almost double that of exports. These figures were mainly based on imports of *Metal and manufactured* (42.5%) and *Capital goods* (8.7%).

Exports from **Álava** in this third quarter grew by 13.8%, led by the inter-annual rise of *Capital goods* (20.3%) and more specifically by the excellent performance of *Transport material* (32.4%). Imports showed a slight increase of 1.6%, as a result of the dramatic fall of *Transport material* (-28.8%) even though there were rises for other imports such as *Metal and manufactured* (45.9%) and *Plastics and rubber* (25.5%).
