

Eight out of every ten university students decided to carry out their studies in Public Universities

While there is a greater presence of boys in technical studies, girls are in the majority in health sciences

In academic year 2006-07 66,077 students inscribed in the universities of the Autonomous Community of the Basque Country, which meant a 4% decrease with respect to the previous year, according to data elaborated by Eustat, the Basque Statistics Office. The decrease in population that took place in the late 1980s and in the 1990s was one of the factors that is affecting the amount of inscriptions in universities.

As for territorial distribution, the amount of students that carried out their studies in Bizkaia reached a total of 55% of the total inscriptions, followed by the territory of Gipuzkoa with 31% and, lastly, by Alava with 14%.

Of the total of inscriptions, 54% were women, a similar percentage to that of the previous academic year. With respect to the type of university, 79% of the students were inscribed in public universities.

Evolution of the body of university students in terms of type of studies. Academic year 2006-07

	ACADEMIC YEARS					% Variation 2006-07 /2005-06
	2006 2007	2005 2006	2004 2005	2003 2004	2002 2003	
TOTAL	66.077	68.924	72.394	74.557	76.589	-4,1
Diploma	14.833	14.770	15.113	15.005	15.331	0,4
Technical Architecture or Technical Engineering	11.799	12.418	12.756	12.709	12.146	-5,0
Degree	27.801	29.251	31.705	33.768	36.079	-5,0
Architecture or Engineering	9.258	9.883	10.122	10.478	10.641	-6,3
Postgraduate	2.386	2.602	2.698	2.597	2.392	-8,3
