

Current income of the Basque Administrations grew by 12.0% in 2007, compared to 10.5% for expenditure

The financial debt on 31st December 2007 was 3,110 million euros, representing 4.7% of GDP

Current expenditure of the Basque Administrations -formed by the Basque Government, the Provincial Councils and the Municipal Administrations, alongside their corresponding Autonomous Organisations and supramunicipal and inframunicipal bodies- registered a 10.5% rise in 2007, according to EUSTAT data. Current expenditure came to 12,224.0 million euros, while current income rose to 15,974.9 million, with an annual rate of increase of 12.0%, in relation to 2006.

This evolution meant that the balance of current operations (current income minus current expenditure) surpassed the position of the previous year by 17.2%, coming to 3,750.9 million euros.

Distribution of Tax Revenue of the Basque Administrations. 2007 (%).

Source: EUSTAT

Tax revenue, which accounted for 89.8% of total current income, increased by 9.5%. Direct taxes experienced the most growth: more specifically, revenue coming from Company Taxes grew by 20.9% and that derived from Income Tax by 16.1%. Municipal taxes showed more modest growth of 7%. Revenue from VAT showed the least growth, 3.3%.

Among the chapters dealing with current expenditure, the smallest growth continued to be that of Personnel Costs, with 7.8%; the other chapters of expenditure grew by over 10%. In consequence, current expenditure reached a 10.5% increase, which, compared with the greater growth of current income (12.0%), generated a growth in the balance of current operations in 2007 of 17.2%.

As regards the capital operations (capital Investments and transfers), income decreased by 14.2% while expenditure increased by 11.6%.

This balance of capital operations, added to the aforementioned current operations balance, gave a resultant non-financial budgetary balance of 1,581.8 million euros, 248 million more than in 2006.
