This figure was down on the first quarter of 2009, where nearly 81% of the marriages were civil. In this second quarter, the number of weddings in May and June increased considerably, in contrast to the previous quarter, which was noted for the low number of weddings held.

In April, May and June 2009, there were 2,296 weddings in the Basque Country, which was 24.3% down on the same quarter of the previous year, according to Eustat data. By provinces, 1,172 weddings were held in Bizkaia, followed by Gipuzkoa with 822 and Álava with 235. On the other hand, 67 couples set up home outside the Basque Country.

The trend continues for people to be older when they marry

These percentages are higher than those for the same period of 2008 (75.3% and 61.3%, respectively), and yet again this quarter, the trend continued for people to be older when they marry.
