

## Building drove the Construction sector in the Basque Country to 6.9% growth in the fourth quarter of 2017

***In 2017 as a whole Building improved on the positive rates obtained the previous year, with growth of 8.0%, compared to the drop in Civil Works (-8.8%)***

Construction activity in the Basque Country registered a year-on-year nominal upturn of 6.9% in the fourth quarter of 2017, in homogeneous terms of the working calendar, according to EUSTAT data.

Once corrected for seasonal effects, the Construction sector was up by 3.1% in the fourth quarter of 2017 compared to the third quarter of the same year.

**Year-on-year variation rate of the construction index in the Basque Country. (%)**  
 Corrected for calendar effects

The increase in Construction sector in this quarter activity was due to the positive performance of the Building sub-sector, which experienced a year-on-year upturn of 8.2%, since the Civil Works sub-sector contracted by 2.2%.

In quarter-on-quarter terms, if the activity of the sector in the fourth quarter of 2017 is compared to the previous quarter, the Building subsector had a negative evolution of 3.2%, whereas the Civil Works subsector posted an increase of 2.9%.

Employment in the Construction sector experienced an increase of 0.2% in the fourth quarter of 2017 compared to the third quarter of 2017.
