Purchasing Power Parity (PPP) is an economic indicator that allows the comparison between different countries, taking into account the Gross Domestic Product per capita in terms of the living costs in each country.

In the ranking, in 2017, the GDP per capita (PPP) of the Basque Country was only exceeded by seven EU-28 countries: Luxembourg (253), Ireland (184), Austria and The Netherlands (128 each), Denmark (125), Germany (123) and Sweden (122).

Following these were the Basque Country (121), then Belgium (117), Finland (109), the United Kingdom (105), France (104), Italy and Malta (96), Spain (92) and the rest of the countries of the EU-28.

At the bottom of the ranking of GDP per capita (PPP) in 2017 were Greece and Latvia (67 each), Romania (63), Croatia (61) and Bulgaria (49).
