ANNUAL ACCUMULATE (FIRST SIX MONTHS OF 2020): the foreign trade balance generated a surplus of 2,227 million euros and the coverage rate stood at 128.4%

For the first six months of 2020 as a whole, and for **exports** from the Basque Country, a decrease of 22.9% was registered compared to the same period of the previous year, which translated into a fall of 2,993.5 million euros. The total amount of exports this period stood at 10,061.4 million euros; the greatest contributor to this figure was Bizkaia, with 3,892.8 million (38.7% of the total), followed by Gipuzkoa (3,265.0 million) and Álava (2,903.5 million).

Bizkaia exports decreased by 20.5% in year-on-year terms (down 1,006.6 million on 2019). In Álava exports decreased by 22.1% (down 826.1 million) and they fell by 26.2% in Gipuzkoa (down 1,160.8 million).

Considering the type of exported product, it was *Non-energy products*, with a decrease of 2,565.5 million, which accounted for the majority of the aforementioned drop, although *Non-energy products* were also down compared to the same quarter of the previous year (-428.0 million).

The ten most exported products (export duty groups) during the first six months of 2020 accounted for 40.2% of exports, reaching a total of 4,040.4 million. All registered decreases in respect of the same period of 2019. Half of these decreases stood above 100 million euros, with three of them standing out with downturns of around 300 million; specifically, these were products connected to the vehicle sector: *Diesel and electric motor units for railway tracks and motorised trams* were down 54.8% (-305.9 million euros); *Passenger cars with less than 10 seats* dropped 25.3% (-297.7 million); *Goods Transport Vehicles* decreased by 25.2% (-193.9 million); and *Vehicle parts and accessories* fell by 30.8% (-277.5 million).

The export ranking in these first five months of 2020 situates Germany as the prime receiver country of Basque exports, with 17.1% of the total exported. Germany is followed by France (15.7%), the United States (7.0%) and the United Kingdom (6.3%). Between them, these four countries accounted for almost 46.1% of Basque exports.

Accumulated **imports** for the Basque Country as a whole during the period in question amounted to 7,834.3 million euros. Comparing this figure in year-on-year terms we see that it is 2,592.8 million down on that registered in the same period of 2019. This decrease (24.9%) is largely due to the fact that the province of Bizkaia (with imports of 4,382.4 million) registered a downturn of 26.9%, that is, 1,613.2 million down on the same period of the previous year. Imports decreased in Bizkaia (-22.2% and down 499.7 million) and also in Álava (-22.1% and down 479.9 million); the value of imports in these two provinces stood at 1,756.1 and 1,695.8 million euros, respectively. Imports of *Energy Products* fell by 41.6% and those of *Non-energy Products* were down 19.0%.

Foreign trade in goods in the Basque Country during the first six months of 2020 had a positive balance of 2,227.1 million euros, maintaining a positive coverage rate of 128.4%.
