By province, in Bizkaia there was an 8.7% year-on-year decrease in the sales index, in Gipuzkoa it was down 6.1% and in Álava it fell 5.8%.

In relation to the preceding quarter, on the other hand, sales increased by 3.9% in Gipuzkoa, by 3.1% in Álava and, lastly, by 0.6% in Bizkaia.

The index of people employed in Services as a whole for the Basque Country dropped 3.6% in the year-on-year period. In relation to the previous quarter there was an increase of 0.8%.

**NOTE:**

Included as persons employed considered in this and other short-term indices, are those covered by an ERTE (Temporary Labour Force Adjustment Plan), following the definition of persons employed indicated by the Statistical Office of the European Union (Eurostat) in its manual [Methodology of Short Term Business Statistics](#).

The models used in the correction of calendar effects and deseasonalisation of the series include the effect of COVID-19 on the variables studied, following the recommendations of the Statistical Office of the European Union (Eurostat) in its methodological note [Guidance on Time Series Treatment in the context of the COVID-19 crisis](#).

Eustat would like to thank all the establishments that have collaborated in making this effort despite the circumstances. As a result, the index for the first quarter was calculated with **93.20% coverage** of the sample – whose information was collected during April.
