

Activity in the Construction sector in the Basque Country grew by 4.1% in the third quarter of 2021

The Building sub-sector increased by 3.9% and the Civil Works sub-sector rose by 5.1%

Construction activity in the Basque Country registered, in nominal terms, a year-on-year upturn of 4.1% in the third quarter of 2021, once corrected for calendar effects, according to Eustat data.

The year-on-year increase in the Construction sector this quarter is explained by both the performance of *Civil Works*, which rose by 5.1%, and that of *Building*, which was up 3.9% in relation to the third quarter of 2020.

Year-on-year variation rate. Construction index in the Basque Country (%) Corrected for calendar effects

In the year-to-date, the sector posted a 5.9% increase in its activity in relation to the same cumulative period of 2020. The annual cumulative total grew by 6.3% in the case of *Building* and by 3.5% in that of *Civil Works*.

Comparing the activity of the sector in this third quarter of 2021 with that of the previous quarter, once corrected for seasonal effects, revealed an increase of 1.3%. *Building* posted a positive quarter-on-quarter evolution of 0.1% and *Civil Works* rose in relation to the previous quarter by 9.4%.

Finally, and in deseasonalised terms, the number of people employed in the construction sector in the third quarter of 2021 was down 0.3% in respect of the second quarter of 2021.
