

Exports grew by 31.2% in Bizkaia, 19.4% in Álava and 17.1% in Gipuzkoa in 2021

The most exported products were *“Passenger cars with fewer than 10 seats”* in Álava, *“Refined petroleum oils”* in Bizkaia and *“Vehicle parts and accessories”* in Gipuzkoa

ÁLAVA

In 2021 exports of goods from the province of Álava grew by 19.4% (1,190.7 million) compared to 2020 and 2.7% (192.6 million) compared to 2019, totalling 7,340.5 million euros, according to data prepared by Eustat.

Imports rose by 21.3% (794.4 million) compared to 2020 and 8.3% (346.5 million) compared to 2019, totalling 4,529.9 million euros; as such, the coverage rate was 162.0%.

This trade was conducted primarily by "Road" with 69% for exports and 81% in the case of imports; the other means of transport used was "Sea", with 29% for the former and 15% for the latter.

PRODUCTS TRADED

Exports from Álava were dominated this year by the "vehicle sector", maintaining a pattern initiated years ago which faltered during the pandemic year. As such, a detailed analysis of the most important products - customs duty groups - reveals that the list (of a total of 838 export headings, 224 of which reflect an amount over one million euros) is topped by *“Passenger cars with fewer than 10 seats”* (2,056 million), followed by *“Goods transport vehicles”* (1,508 million), *“Vehicle parts and accessories”* (401 million) and *“New rubber tyres”* (366 million); between them all, they account for 59% of the exports for this province.

Other groups worth highlighting are "*Wine made with fresh grapes*" (197.5 million), "*Other tubes and hollow profiles made of iron or steel*" (174 million) and "*Copper waste and scrap*" (88 million); all these products post a diverse range of growth rates compared to the previous year, but two groups in the top ten register negative rates: "*Aircraft parts*" (-11.9% with exports of 82 million) and "*Seamless tubes and hollow profiles made of iron or steel*" (-17.5% with 170 million).

Imports to Álava are of course largely associated with motor vehicle manufacturing; as such, the three main groups were "*Vehicle parts and accessories*" (514.5 million), "*Internal combustion engines, diesel or semi-diesel*" (438.8 million) and "*Electric accumulators and parts thereof*" (129.2 million).

DESTINATION COUNTRIES

As in the case of the Basque Country, exports were concentrated in five countries, which together account for 57% of the total, with 4,196.8 million. Germany headed the list (2,068 million) with a clear predominance of "Motor vehicles and parts thereof" (77.6% of the total exported to this country); followed by France (1,093.6 million) with "Motor vehicles and parts thereof" at 27.1%; and this type of product was also the most prevalent in the other three countries in the top five. As such, in the United Kingdom it represented 58.8% of a total of 399.4 million and in Belgium, 74.2% of the 310.6 million. In the case of the fourth country, Portugal, "Motor vehicles and parts thereof" accounted for 14.1% of the 325.1 million exported, albeit closely followed by "Copper and articles thereof" (13.9%) and "Articles of iron or steel" (11.2%).

BIZKAIA

In 2021 exports of goods from the province of Bizkaia grew by 31.2% (2,425.4 million) compared to 2020 and 5.0% (485.6 million) compared to 2019, totalling 10,205 million euros.
