

## Activity in the Construction sector in the Basque Country grew by 8.4% in the second quarter of 2022

*In relation to the previous quarter, current prices were down 0.3%*

Activity in the Construction sector in the Basque Country for the second quarter of 2022 was 8.4% higher in current prices than that of the same quarter of the previous year, according to Eustat data. Compared to the previous quarter, and once any seasonal effects had been eliminated, current prices in terms of activity fell by 0.3%.

### Year-on-year variation rate. Construction index in the Basque Country (%)

Corrected for calendar effects

Source: Eustat. Construction Index

The year-on-year upturn at current prices in this quarter is explained both by the behaviour of the *Building* sub-sector, which grew 6.3% in year-on-year terms, and, especially, that of *Civil Works*, which rose by 22.6% in the second quarter in relation to the previous year.

Comparing the activity of the sector in this second quarter of 2022 with that of the previous quarter, once corrected for seasonal effects, revealed a decrease of 0.3% in index, in nominal terms. *Building*

showed a positive quarter-on-quarter evolution of 0.1%, while *Civil Works* fell by 2.8% in relation to the previous quarter.
