As regards structure, the largest sector, according to the number of establishments, was *Trade, Transportation and Hospitality*, (35.4% of the total), followed by *Professional Activities and Support Services* (16.3%) and *Construction* and *Public Administration, Education and Health* (both with 11.8%).

The distribution of establishments according to their size remained very similar to previous years. Barely 2,609 establishments, 1.6% of the total, were establishments with an average of 50 or more employees, despite accounting for 42.1% of the total number of employees as a whole. On the other hand, 119,809 establishments, almost three-quarters of the total, were small (fewer than 3 employees) and accounted for 15.5% of all those in work. It is in these small establishments where the loss of employment has been concentrated, with 3,153 fewer jobs. In contrast, employment grew most in the strata of 50 and more employees and 20 to 49 employees, gaining 12,065 and 4,355 jobs respectively.

By sex, 45.0% of people employed in the Basque Country during 2022 were women, half a point higher than the previous year. The sectors with most female employees were Healthcare and Social Services (77.8% women), Education (67.4%) and Services (62.6%). By contrast, the sectors in which the majority of employees were male were *Construction* (89.2%), and *Industrial and Primary*, with approximately 79% in both cases.

COMPANIES

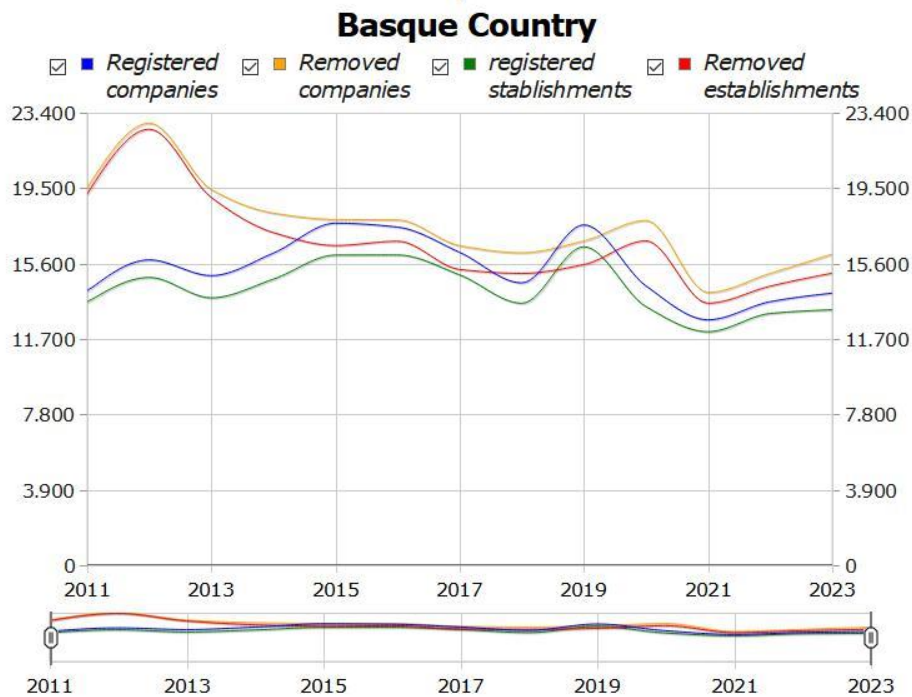

Of the total of companies (legal units) that provide support for establishments' activities, 97.0% were based in the Basque Country and the remaining 3% (4,469) were in the rest of Spain. Of those with 100 employees or more, the percentage based in the Basque Country reached 78.0%. Bizkaia accounted for slightly more than half the companies based in the Basque Country, with 74,951 companies (51.8%); Gipuzkoa had 49,205 (34.0%) and Álava 20,445 (14.2%).

The average size of companies in the Basque Country remained stable, with 6.2 employees per company and 5.6 per establishment. Companies under individual ownership only had 1.4 employees, both per company and establishment, whereas for the other legal forms these averages reached 13.2 and 10.5 employees, respectively.

COMPANY DEMOGRAPHICS

Regarding the age of the companies, the fact that many of these Basque companies are relatively new stands out. 30.6% of companies operating in the Basque Country were five years old or less and the percentage of those in operation for two years or less stood at 13.5%.

Creation and death of companies and establishments.

Regarding rotation, and taking into account establishment openings and closures, 13,211 began and 15,107 ceased trading during 2022, with a negative balance of 1,896 establishments. The establishment birth rate (quotient between those created and the stock) was 7.9% and the death rate was 9.1%. As a result, the net growth rate was negative (-1.1%).

The greatest rotation was seen in the branches of *Trade, Transportation and Hotel Management & Catering*, with 27.9% of new openings and 31.8% of closures, *Professional Activities and Support Services*, with 18.4% of new openings and 18.8% of closures and *Construction*, with figures of 16.9% and 17.7% respectively.

In the analysis of demography by legal status, the establishments created under the individual ownership formula stand out for having generated 68.8% of new openings and 63.2% of closures.
