Source: Eustat. Industrial production index

By economic destination of goods, production in *Consumer Goods* posted a negative year-on-year performance in July 2024, with a 2.1% decrease in production for the sector as a whole. This decrease was due to the performance of both *Consumer Durables* and *Consumer Non-durables*, which fell by 5.3% and 1.4% respectively. *Consumer Durables* includes, among other activities, the manufacture of furniture and domestic appliances. *Consumer Non-durables* includes the activities of processing and conserving foodstuffs; the manufacture of cleaning and hygiene products; pharmaceutical products; and the manufacture of clothing.

Production of *Capital Goods*, which includes the manufacture of motor vehicles, construction of locomotives and railway material, naval construction and manufacture of aircraft, increased by 1.3% compared to the previous July.

In *Intermediate Goods*, which includes metallurgy and manufacture of metal products, the chemical industry and manufacture of rubber and plastic products, production fell by 1.3%.

Finally, *Energy* production also decreased in July 2024, falling by 3.1% in relation to the same month of the previous year. This sector includes the production and supply of electricity and oil refining.
