Fifth plan of those passed so far, in accordance with Law 4/86, dated 23rd April, on statistics in the A.C. of the Basque Country. In addition to the legal text, there is an annexe which reflects the statistical operations to be carried out by the Basque Statistics Organisation during the reference period. For each one of these we itemise the organisations responsible for carrying them out, the area to be tackled and, as relevant, the periodicity of the study
